

Cezary Budzisz

Designer & Fullstack Developer

About me

I'm a driven and ambitious person with growing experience in 3D graphics and game development, fields that truly excite me and shape my professional path. My background in web design and programming helps me combine technical skill with creative thinking. Outside of the tech sphere, I am deeply committed to the gym and leading an active, healthy lifestyle. I continuously seek opportunities to expand my skills and knowledge through new challenges.
